## Personal Reflection
## Community Volunteer Hours at Place of Employment

Students who are 14 and over may count up to 10 hours of paid employment towards their graduation requirement of 40 volunteer hours. Students must complete a personal reflection of approximately 200 words or ½ page in length discussing how their paid work has contributed to the service of others.

Questions to consider in brainstorming their writing include: What do you do in your job that has benefited the community? What have you learned about helping others? Has your work experience impacted your personal, academic or career goals? Why or why not?
