Co-operative Education allows students to earn credits based on classroom learning and work experience. Learning in the cooperative education program is associated with a school subject either to be taken concurrently with the co-op program or with a previously completed course.

For example:

- A student placed in an office setting will have business or computer course(s)
- A student placed with a carpenter will have a construction technology course(s)

Students will be **interviewed** by the co-op teachers in order to check if the student is suitable for the co-op program. If there are more students applying for a particular area of work than there are co-op placements available, competitive interviews will be held.

Students who are selected for the co-op program must demonstrate a willingness to learn, are socially mature, attend class regularly, are punctual and be an independent learner.

Parental Consent: Please check off the following boxes

- My son/daughter may participate in an experiential learning opportunity within the community.
- I understand that a student is not paid money at the workplace; credits are earned towards their Ontario Secondary School Diploma (OSSD).
- I understand that travel between LCVI and the placement is the responsibility of the student.
- I understand that some workplaces may require specific medical tests or police checks before the beginning of the placement
- I understand that a student must adhere to the workplace's health and safety regulations.
- I understand that completion of this application does not ensure a Co-Op placement; students will go through an interview process.
- I understand that Co-op work placements must be "tied to" a related in-school course taken previously or concurrently with the Co-op Education program.
